Strategic Problems Solved by Full-Service Estate Settlement through Alix

Negative TOA During Estate Events

- Client death is one of the highest-risk moments for asset attrition
- **Alix delivers visible execution and coordination during transition, reducing negative TOA risk and protecting firm- wide assets**

01

An Underserved Client Pain Point

- Executors face 9–18 months of fragmented, uncoordinated responsibilities
- No clear owner across financial, legal, and administrative tasks
- **Alix centralizes and manages the process, solving a serious client pain point**

02

Money in Motion

- Estate settlement creates full financial transparency
- **Alix provides structured, permissioned workflows that enable responsible asset consolidation, NTF asset capture, and expansion into additional households and accounts**

The Alix Customer Journey

Simple advisor implementation

Minimal systems integration

High client impact

Advisor intro to alix

Schwab advisor introduces Alix as a proactive resource to help manage what comes next

01

Executor conversation

Executor meets with an Alix Specialist for a structured overview of the estate & next steps

02

Full-service settlement

Settlement team is appointed and manages the process end-to-end

03

Advisor connection

Advisors receive key updates, app visibility and scheduled check-ins with family approval

04

Asset visibility

Alix provides structured, permissioned pathways that make consolidation simple

05

Estate settlement completion

From tax filings to final distributions and formal closure, ensuring nothing is left unresolved

Client Pathways

Pathway: Existing Charles Schwab Client Experiences a Family Death

Step 1: Client Contacts Schwab Advisor

- Client notifies their Schwab advisor of the death
- Advisor introduces Alix as a settlement resource

Step 2: Advisor-Led Introduction to Alix

- Advisor initiates warm transfer (phone or email) OR shares Schwab-specific booking link
- Initial consultation and assessment occurs with advisor present (with consent)

Step 3: Executor Onboarding & Estate Discovery

- Alix Settlement Specialist clarifies executor role, estate documents, asset landscape, and immediate priorities
- Consent obtained for advisor inclusion in updates

Step 4: Coordinated Settlement Execution

- Alix manages probate, documentation, notifications, account transitions, and asset marshalling
- Schwab advisor remains focused on investment strategy, planning, and relationship continuity
- Defined advisor touchpoints at key financial events (estate account creation, asset consolidation, distribution planning)

The Result:

- One coordinated settlement experience Continued relationship with trusted Schwab advisor
- Increase in NTF assets

Alix + Schwab Immediate Implementation Model

Advisor Enablement

01

- **Targeted training sessions** with clear positioning guidance
- **Ready-to-use materials**: email templates, call scripts, FAQ, client-facing one-pagers
- **Dedicated Alix implementation support**

Future State

02

- Deeper platform integration with Schwab's advisor workstation
- Embedded referral pathways within internal estate servicing processes
- Estate settlement services positioned as a core Schwab capability

Structured Settlement Engagement

03

With executor approval, advisors are included in the settlement process in the following ways.

- Included in all email communications to the executor
- Provided access to the Alix app to track progress and view updates
- Contacted to schedule meetings at defined touchpoints

Simple Introduction Pathways

04

Advisors can engage with Alix using any of the following options:

- Dedicated Charles Schwab priority phone number
- Private CS email address
- Direct booking link to meet with dedicated Charles Schwab trained Settlement Specialists

Advisors can reach out to Alix prior to family introduction or initiate a warm transfer via email or joint phone call

Why This Works for Schwab

- High emotional impact, brand-aligned capability expansion
- Increases perceived value without changing advice model
- Reduces fee friction and negative TOA risk
- Structured workflows to increase NTF households, accounts and assets
- Easy to implement approach
- Technology-forward model aligned with Schwab's long-term AI strategy
